“I was on my daily run when I was attacked, beaten, and raped. What I’ve been through is one of the many reasons I oppose Amendment 67.”

– Amanda  
Survivor and Coloradan

**Amendment 67 would cause women like Amanda to suffer even more, while doing nothing to protect women from violent attackers.**

**Amendment 67 would:**

- Prevent doctors from administering emergency contraception to rape victims
- Ban all abortion with no exceptions – not even for victims of rape and incest or when a woman’s life is at risk
- Eliminate a woman’s right to make personal and private medical decisions about her own body
- Subject women who have suffered miscarriages to criminal investigations as well as their doctors and other caregivers

**Amendment 67 Goes Too Far and Would Have Dangerous Consequences.  
Vote NO on Amendment 67.**
