

ERIC CANTOR, WHAT WOULD — *your* — BUBBE THINK?

*We think she'd want you to
pass real immigration reform*

Eric Cantor's grandparents immigrated from Eastern Europe in the first half of the 20th Century, fleeing persecution. So did ours, and the ancestors of many other American Jews. Today, few of them would be allowed access to the United States under our broken immigration laws.

As American Jews, we believe that a country which grants immigrants access to the same basic freedoms and opportunities that drew our ancestors is a stronger country.

House Majority Leader Eric Cantor has the power to dramatically improve the lives of millions – keeping families together and providing opportunity for all.

That's why Bend the Arc and our coalition partners have collected thousands of petition signatures from Jews around the country urging Eric Cantor to schedule a vote on comprehensive immigration reform.

Because his bubbe – and ours — would have wanted us to nudge.
