# GOV. MIKE PENCE'S SOLUTION FOR INDIANA'S ROADS AND BRIDGES

# WITH INDIANA'S ROADS AND BRIDGES IN CRITICAL NEED, GOV. PENCE'S PLAN FALLS WOEFULLY SHORT

After years of ignoring the sorry state of Indiana's roads and bridges to create the illusion of a big surplus, Gov. Mike Pence has yielded to public pressure and announced that he'll release some funds for infrastructure improvements.<sup>1</sup>

**But after years of neglect, what Pence is offering is dangerously inadequate!**

**That's because Pence's plan funds only a fraction of the investment our roads and bridges really need<sup>2</sup> — and 80% of the state's structurally unsound bridges won't receive a cent.<sup>3</sup> Those are bridges your family might be crossing each day!**
