**Why Vote Yes on Question 1?**

**KEEP KC GOING STRONG.** Kansas City is a city on the move, and we're not stopping. We need an airport that's as great as the rest of our city.

**SAME CONVENIENCE, MORE TO OFFER.** We keep the convenience we love while airlines get the ability to add more direct flights and better flight options.

**JOB CREATION FOR ALL.** Thousands of jobs, more than \$1 billion in economic impact, strong minority- and women-owned business hiring goals, and local workforce hiring goals.

**FISCALLY RESPONSIBLE.** KCI needs \$500 million in repairs just to keep operating with no improvements. A better KCI is a better investment. And it does not require any city tax money.

**Now Is the Time for a Better KCI!**

Kansas City has never been a more exciting than it is right now. That's why it's a perfect time for a better KCI.

Our city is growing and expanding. We are a destination city for business, conventions, and tourism.

If we want to sustain this momentum, we need a better KCI.

We need an airport that's just as convenient as the one we have, but with more to offer.
